NAIROBI NATIONAL PARK AND GIRAFFE CENTRE DAY TRIP ITINERARY

ALL ARE GROUP TRIP, AND A CHANGE IN NUMBER OF TRAVELLERS WILL AFFECT THE PRICES

Date: 5th January 2026 to 10th December 2026 (Excluding Easter Holidays 3rd April 2026-6th April 2026 & Festive season period.

Nestled on the outskirts of Kenya's vibrant capital, Nairobi National Park offers a sanctuary for an impressive array of wildlife amidst stunning landscapes. There is nowhere else in the world where such a collection of wilderness and wildlife sits so adjacently to a major city. Only (6.4 km) separate the center of the city from the wildlife in the reserve.

The national park encompasses an area of 45.26 square miles (117.2 sq km) and was the first national park established in Kenya. The park is smaller than most Kenyan and other Africa national parks. Although it is so small, it is quite diverse in habitats. The majority of the habitats are dominated by open plains, grasslands and scattered acacia trees. Other parts of the park include a highland forest, rocky gorges, and forest. The varied habitats bring a variety of mammals and bird species.

Almost everyone traveling to Africa sits in hope of seeing the predator species. Nairobi National Park does not disappoint with predators including lions and other large mammal species including buffalo, black rhino, baboon, eland, gazelle, hartebeest, hippopotamus, impala and giraffe. It is fair to expect to see each of these species during a visit.

After enjoying your morning game and your picnic breakfast by noon you shall proceed for a short drive to Giraffe Centre.

The Giraffe Centre is the creation of the African Fund for Endangered Wildlife (A.F.E.W. Kenya), a Kenyan non-profit organization. The main purpose is to educate Kenyan school children and youth on their country's wildlife and environment, as well as give local and international visitors an opportunity to come into close contact with the world's tallest species, the giraffe.

After arriving at the centre and paying your entrance fee, you can listen to a short and interesting talk about the giraffes of Kenya and the endangered Rothschild. Then, you can ask the nice staff members to give you some giraffe food (pellets) so you can feed them. The pellets consist of dietary supplements, as the giraffes eat mainly tree leaves. It is important to give them one piece at a time, as it is more fun, and you will avoid being bitten.
